

## REASONS YOU'LL LOVE US!

**Family Dentistry** - Our goal is to provide exceptional family dental care to patients of all ages. We emphasize prevention in order to avoid expensive dental procedures in the future.

**Cosmetic Dentistry** - Whether you are looking for a simple white filling or a smile makeover, you are at the right place. We are well-trained in providing cosmetic dentistry using the latest techniques to give you the smile of your dreams. Our office offers porcelain veneers and crowns that can be bonded to your existing teeth in just two visits.

**Sedation Dentistry** - We offer a variety of sedation agents depending on the severity of dental anxiety you may have. For most of our anxious patients, nitrous oxide (laughing gas) will do the job. Otherwise, you can request oral conscious sedation by Dr. Chimmiri or deeper IV sedation by a dental anesthesiologist who will come to the office for you.

**Dental Implants** - Implants are a permanent solution for replacing missing teeth. Dental implants work, feel, and look like your real teeth. We are happy to announce that we provide affordable implant dentistry.

**Periodontics** - It's important to have a healthy foundation of gum and bone for your teeth. We examine them to recommend the best solutions for your long term oral health.

**Teeth Whitening** - We can provide you with whitening trays custom fit to your teeth so you can whiten your teeth in the comfort of your own home. If you are pressed for time and need immediate results, in-office teeth whitening is available.

**Dental Sealants** - Dental sealants are one of the best ways to prevent cavities on newly erupted molars. These dental sealants cover the deep grooves in teeth that are the most likely place to get cavities.
